Alicante, Labradores 17

We are pleased to invite you to the 20th anniversary of the gallery whose celebration we have organized two exhibitions in our spaces in Alicante and Madrid under the same title "20 | 20".

20 years, 20 artists. We have set up both exhibitions with a selection of artists who have shaped and contributed greatly to the growth and consolidation of our project.

Aural began in December 2001 at Calle Churruca 3 in Alicante, in 2009 we moved to the historic center of the city to a building from the s. XVIII located in Calle Labradores 17, current gallery space. With the aim of continuing to open horizons and after some time brooding over the possibility, in December 2019 we decided to open a new space, this time in Madrid on Calle Pelayo 68 in the heart of the Chueca neighborhood, with a clear interest in expanding visibility of the work of artists nationwide.

A project that has been built in an organic and fluid way accompanied by artists from several generations. Luis Gordillo, with his first exhibition in 2005 and with him we inaugurated in Madrid, already being his 4th individual exhibition in Aural. He has been an unbeatable support and traveling partner who together with Anna Bella Geiger and Concha Jerez have been our "masters" until today. We have in mind the disappeared Ángeles Marco with whom we worked until his death in 2008. It is important to talk about complicities when we mention Fernando Sinaga, with whom in 2007 we showed his first solo show in Alicante and this year we had one of his last projects again . Javier Vallhonrat opened the 2020-2021 season in both spaces simultaneously, Ingrid Wildi Merino from whom we expect a new project soon, José Maldonado currently with an individual in Madrid, Pep Agut who exhibited a very political project in July of this year in Madrid when at the same time, he exhibited his individual in the Crystal Palace of the Museo Nacional Centro de Arte Reina Sofía, Juan Carlos Nadal and Máximo González.

We are excited to work with artists with a renewed look and new artistic approaches. From a very young age they continue to follow us and we continue to strongly support Juan José Martín Andrés, Jesús Rivera, Judith Egger or the most recent addition of Mirjam Kroker.

Mention Ignacio Gómez de Liaño, artist and thinker, with whom we have already been collaborating in the last year and with whom we are organizing an exhibition project, or Urs Lüthi, with whom we will have his first solo show at the Madrid gallery coinciding with Arco art fair in 2022. At this moment we have not wanted to leave behind in this celebration and exhibition some artists who today were not part of the current cast, but they were and they have been an important part, including Massimo Pisani.

Undoubtedly, a long road of constant complicity is what we have been doing with all artists. We cannot forget many others who have collaborated or participated in one way or another and thus from here we greatly value their contribution. Soon we will announce new additions, collaborations, with artists and galleries. Our great desire to walk together pushes us to create synergies and generate spaces for reflection, around art and thought aimed at collectors but also at the public.

This is our path and we have not done it alone. Do you want to continue join us? It will be a pleasure, always.
